Why We Need to Detox

We are all toxic from heavy metals, pesticides and chemical pollutants from our environment from our food, water, air, cleaning products, carpets, cosmetics, cars, toys, dental fillings even baby products. The constant daily exposure of toxins start in the womb and in later years contribute to sleep problems, lack of energy, focus and loss of vitality. Clean Slate is a safe and natural solution to help reduce the toxic burden on our bodies, boost the immune system and allow it to function properly.

Clean Slate Ingredients

Bioavailable Silica (Orthosilicic Acid) derived from Zeolite (Clinoptilolite), Vitamin C, Trace Minerals from the Great Salt Lakes.

What is Clean Slate?

- Clean Slate is a unique proprietary formula unlike any other. ROOT utilises patent-pending techniques to produce a liquid solution derived from Zeolite (clinoptilolite) with a high content of Bioavailable Silica.
- The special nano cage-like crystal structures in Clean Slate go to work cleansing the body of 1000's of environmental toxins at a cellular level. It's able to bind to toxic heavy metals such as mercury, aluminium, lead, arsenic, thallium, cadmium, arsenic, glyphosate and other pesticides, flouride, allergens, even mold and fungus spores, then safely eliminates them through urine.
- When removing toxins from cellular binding sites, it is important to replenish the body, so 75 trace minerals have been added from the purest source, the Great Salt Lakes and Vitamin C for stability and cell membrane permeability.

How do I take Clean Slate?

- Clean Slate is a powerful detoxifier, so it's important to follow dosage guidelines carefully and take your time.
- Take it orally (under the tongue) or in a glass of water.
- Start slow with 1 x single drop for the first couple of days.
- Increase by 1 x drop at a time, building up to the maximum dosage of 10 x drops twice daily (am + pm).
- Can be taken on an empty stomach or with meals.
- If you experience any side effects such as headaches or itchy skin, simply reduce your dose and drink more water.
- Clean Slate can be taken by pregnant women, babies and any age up to the elderly.

Our Autism Journey Non-verbal no longer!

Hi! My son Michael turned 14 in January 2021. He had been completely non verbal since he was about 15 months old.

Stephanie reached out to me and invited me to a zoom call, to discuss a heavy metals detox product (Clean Slate). I was impressed by everything I heard on the call, so I gave it a try.

Within 10 days my son was sleeping through the night (something he had never done). He was taking naps during the day too, on some days.

By the end of the 3rd week, he started mumbling consonants : the first ones I noticed were g, b and m. With some practice, he could say his name, (Michael), Koko, come, go, about half of the letters of the alphabet.

With colours, numbers and letters of the alphabet, it was obvious that he had been learning things all these years, but just couldn't express himself.

We are about 3 months in with Clean Slate now, his skin is clear (he had some recurring patches), he is calm and confident and is gaining new words.

We are so happy about the progress he is making and sooooo excited for the future!!!

Auto-Immune

Lauren: Diagnosed with diagnosed Autoimmune Progesterone Anaphylaxis and Dermatitis, Mast Cell Activation Syndrome, Postural Orthostatic Tachycardia Syndrome, Reynaud's, IBS, CFS, Hashimoto, PMDD. Prescribed multiple medications.

Protocol: The ROOT Trinity (Clean Slate, Zero-In, Restore).

"Five months in I am off all of my meds (except thyroid). I don't have to take forced naps twice a day. "Depression" is gone (never thought I was actually depressed, just sick). Lost 50 lbs. I feel sooo good... didn't know I could ever feel like this!"

Blood Sugars, Weight Loss, Sleep

Protocol: Showing visible results after taking Clean Slate & Zero-In.

"The photos say everything!! 3 weeks since I take the drops and pills and already I feel their effect! I feel like I am deflating. I sleep better, my blood sugar levels don't increase so much anymore, I don't like to eat sweet as before. I RECOMMEND these miracles that cleanse our body!!"

"This is my 79 year old husband, he started on Clean Slate late March, at that time he walked with a shuffle, as he had no confidence in his balance. Today, July 3rd, this is him on our deck. He had given up playing the trumpet and he only felt comfortable speaking with close friends as he could no longer find words and it was difficult to understand him. His speech is still slow but he improves and he is back practicing the trumpet, painting and doing his Astrology research. I cannot express my joy in watching my husband regain his ability to enjoy life".
